There is no other funding needed

Detailed Project Description and Justification:

The project entails the replacement of the aging burglar alarm systems with a higher quality system that is now the district standard. This system also sets the stage for future card key access at these schools. Additionally, the projects involve adding security cameras to these two schools. The goals of these systems are of course to keep students, staff, and visitors safe, and to protect the expensive facilities from vandalism and theft.

Trailside is quite secluded. There has been a recent rash of vehicle break-ins and thefts. The school suffers somewhat because it cannot be seen by neighbors or passers-by. Trailside is also a disaster shelter site, which boosts it in the ASD's priority list for improved security systems.

The project is a critical safety upgrade at Trailside Elementary.

Project Timeline:

Project can commence in FY09

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Anchorage School District
